

Tired of Glasses and Contacts?

Take Advantage of VSP's Laser VisionCareSM Program

If you're tired of wearing glasses and contacts, VSP's Laser VisionCare Program could be just what you're looking for. If you're nearsighted, farsighted or have astigmatism, are at least 18 years old and in good health with no eye diseases — you're a potential candidate for laser vision correction.

Since laser vision correction is a surgical procedure, the decision to have it should be made carefully. Follow these steps to learn the facts and find out if it's right for you.

1. Visit vsp.com to:
 - get details about the program and laser vision correction
 - learn what to expect during surgery
 - download questions to ask your doctor
 - review and download Frequently Asked Questions about the procedure
 - find a VSP network doctor
2. Confirm your eligibility before scheduling an appointment. Log on to vsp.com or call VSP Member Services at 800-877-7195.
3. Call your VSP network doctor to verify their participation in the program.
4. Schedule a complimentary screening with your VSP network doctor to learn more about laser vision correction.

If you decide to have laser vision correction, your VSP network doctor will make arrangements with one of the approved laser surgeons and centers. Your VSP network doctor will also provide your pre-operative care.¹ Post-procedure care is coordinated between your VSP network doctor and your VSP laser surgeon.

VSP Discounted Pricing

You'll save an average of 15 percent off the regular price at contracted laser centers — or an additional 5 percent off the center's promotional price² — which could add up to hundreds of dollars in savings.

¹While the laser vision correction screening and consultation with your VSP network doctor is complimentary, if you have a pre-operative exam and do not proceed with the surgery, your VSP network doctor may charge an exam fee up to \$100.

²VSP discounts may not apply to some laser center promotional programs.

Why VSP's Laser VisionCare Program is Unique

It provides...

- peace of mind knowing VSP's doctors and laser centers meet stringent quality standards
- assurance that your trusted VSP network doctor will manage your laser vision correction care

Keep your
vision healthy.
